

**TERPINEOL**

Terpineol is synthetic pine oil which composed of a mixture of terpenes alcohol and terpene hydrocarbons.

CHEMICAL AND PHYSICAL DATA

PARAMETER	SPECIFICATION	INTERNAL REFERENCE
Total Terpenes Alcohol(% by GC)	≥91	BW-107
Appearance	Liquid (Colorless)	-
Odor	Characteristic	-
Alpha Color	≤20	BW-111
Acid Number (mg KOH/g)	≤0.2	BW-104
Humidity (%)	≤0.6	BW-105
Specific Gravity (20/4 °C)	0.933 - 0.938	BW-103
Refractive Index (20°C)	1.480 – 1.484	BW-108

PROPERTIES

PARAMETER*	SPECIFICATION	INTERNAL REFERENCE
Alpha Terpineol (include. other terpenes alcohols) (% at GC)	≥95	BW-107
Flash Point (°C)	92	BW-114

*The parameters as above do not characterize the product and only taken as reference.

TYPICAL USAGE

Its always use for medium and auxiliary for the fragrances and essences in the perfume industry.

PAKACKING

Steel Drum with contains 180Kg nets. Validity: 12 Months.
